

REMARKS

Claims 1-12 are pending in the subject application. Claims 1-12 are subject to a restriction requirement and/ or an election of species requirement.

RESTRICTION REQUIREMENT

In the above referenced Office Action, the Examiner provided that the pending claims are directed to more than one patentably distinct invention. Specifically, the claims are directed to the following inventions: Group I, claims 1-8 drawn to an apparatus; and Group II, claims 9-12 drawn to a method.

Accordingly, Applicant was requested under 35 U.S.C. 121 to elect the invention to which prosecution on the merits will be restricted. In this regard, Applicant elects, with traverse, Group I, which includes claims drawn to an apparatus, presently embodied in claims 1-8.

Applicant traverses the restriction requirement on the basis that, while the claims of Groups I and II are drawn to an apparatus and a method, a search for either invention would involve the same prior art (i.e., same classes/subclasses). It would appear to Applicants that a search concerning a mechanism for supporting a substrate to be coated by a film would necessarily involve considering references disclosing methods for supporting a substrate to be coated by a film. Conversely, it would appear that a search for such a method would necessarily involve considering references disclosing such a supporting mechanism [first grouping]. As such, Applicant respectfully submits that, since a comprehensive search would involve

consideration of the subject matter of both inventions, for efficiency the inventions could be prosecuted at the same time.

It is respectfully submitted that the subject application is in a condition for allowance. Early and favorable action is requested.
